

**Name:** Sivakumar (First Name) Bellie (Surname)

**Introduce yourself in a brief paragraph:**

I received my Bachelor degree in Civil Engineering from Bharathiar University (India), Master degree in Hydrology and Water Resources Engineering from Anna University (India), and Ph.D. in Civil Engineering from the National University of Singapore. My research and teaching interests are in the fields of hydrology, hydroclimatology, and water resources, with particular emphasis on the nonlinear dynamic, chaotic, and scaling aspects. I have played a commanding role in advancing research on the applications of nonlinear dynamic and chaos theories in these fields, with over 100 publications in peer-reviewed international scientific journals, conference proceedings, and edited books. I am an Associate Editor of *Hydrological Sciences Journal*, a member of the Editorial Advisory Board of *Stochastic Environmental Research and Risk Assessment* and *Journal of Korean Wetlands Society*, and the lead editor of two journal special issues. I have also received a number of scholarships and fellowships throughout my career, including the ones from ICSC Harshbarger World Laboratory (Switzerland), Nils Hörjel Foundation (Sweden), Japan Society for the Promotion of Science, and Korea Science and Technology Societies.
