

I am really pleased of my outstanding performance in post graduate degree, having gained a high distinction with an average throughout my degree, especially given that I worked part time to support my studies. Moreover, it was my great accomplishment to get **Dean Commendation Award** for my excellent performance at academic level. These results reflect well-developed analytical and problem solving skills.

My specific area of interest is financial accounting. The objective of my career is to contribute to the existing literature by higher research and improving the teaching skills
