

Name: Kaushik

Mahata

Introduce yourself in a brief paragraph:

During 1996-1998 I have been with Crompton Greaves Ltd, Mumbai, and Hindusthan Aeronautics Ltd, Bangalore. Since 1998 I have pursued an academic career. I have been with the University of Newcastle since my PhD in 2003.

I have authored more than 20 articles in the international journals on control and signal processing. I have been awarded two Discovery grants by the Australian research council. I received vice chancellor's research excellence award in 2007.

In the University of Newcastle I have been teaching courses on Embedded Systems since 2006. I have also been involved in several industrial projects as a consultant.
