**Name:** Dr Sujatha Sridharan

**Introduce yourself in a brief paragraph:**

Proficient in educating international students at Universities for over 15 years.

Experienced in University teaching in India, Thailand and Australia.

Recipient of "TEACHING EXCELLENCE" award, voted by International Students from CQ University Sydney in 2008.
Nominated for "Teaching Excellence" award again in 2009.

Published articles in academic journals and books.

During residency in India, developed Distance Education study material for coaching IAS and IPS candidates.

Evaluated the pilot phase of "Computer Literacy and Studies in Schools" (1985-86) program in Madras city, carried out by the Developmental & Educational Communications Unit of ISRO at SAC, Ahmedabad. The evaluation served to assist the Government of India (Department of Electronics, Ministry of Education and the National Council of Education, Research & Training) for taking corrective action in its future implementation of the program.
